

LOW CARBON FUEL STANDARD**AFP Attestation Letter**

- **Instructions: Please download this Attestation form and complete all entries offline (typed) to attest to the accuracy of information and data submitted for an alternative fuel production facility. Scan and upload the completed form into the LCFS Alternative Fuels Portal (AFP).**

I certify that the current fuel production process used to produce ethanol (fuel) at the Usinas Itamarati S/A facility is consistent in all of the following areas with all information submitted to CARB in connection with the pathway request: 1) feedstocks used in fuel production; 2) fuel and feedstock production technology; 3) geographic region in which feedstocks and finished fuel are produced; 4) transportation modes used to transport feedstocks and finished fuel and transport distances; 5) types and amounts of thermal and electrical energy consumed in both feedstock and finished fuel production; and 6) any other applicable fuel pathway standard or operating condition established by CARB. The carbon intensity (CI) of the fuel must be no higher than the CI for the certified FPC. I understand that the following facility information will be posted on the LCFS web site: Facility Name, Facility Address, Company ID, Facility ID, Fuel Pathway Code(s), CI values, and Fuel Pathway Description(s).

By submitting this form, Usinas Itamarati S/A (Fuel Pathway Applicant) accepts responsibility for the information herein provided to CARB. I certify under penalty of perjury under the laws of the State of California that I have personally examined, and am familiar with, the statements and information submitted in this document. I certify that the statements and information submitted to CARB are true, accurate, and complete.
